Reception

A Single 65" Samsung Display will be flat wall mounted with power and data points being provided by others. A Single SY Wall Control Panel will be mounted to the side of the Panel and will provide Power On/Off HDMI 1 and HDMI 2 Selection.

Samsung QB65C Smart Signage Display	1	£1,115.00	£1,115.00
Flat Screen Articulating Wall Mount	1	£175.00	£175.00
SY 4 Button Wall Control Panel	1	£285.81	£285.81
RS232 Cable	1	£12.95	£12.95

Meeting Rooms 1, 2 & 3 (D-02, D-03, D-08)

Meeting Rooms 1, 2 & 3 shall have a 65" Commercial Display mounted on an articulating wall arm mount to allow for ease of access to the rear of the display post installation. A Logitech Rally Bar Mini All-in-One Conferencing Bar with integrated camera, speakers and microphones will be mounted under the display and will move with the display. A Logitech Tap IP Touch Control Panel will be supplied and housed on the client's table. For wireless presentation a Mersive Solstice device shall be supplied. A Table Box will be supplied and installed by others with HDMI wired connection for presentation to the display and a USB-C cable for power only.

Connection shall be in the following manner, Logitech Rally Bar Mini - HDMI to Display and Cat6a to a network port, the Tap IP - Cat6a to a network port under the table, Mersive - HDMI to Display.

For Room Control a 6 Button SY Wall Control Panel with rotary Volume Control will be installed each will have the following commands;

Display On
Display Off
Conferencing (HDMI 1)
Wireless Presentation (HDMI 2)
Wired Presentation (HDMI 3)

A Logitech Room Booking Panel will be mounted to the exterior panel of each meeting room, this will be secured and connected on Cat6a Cabling to the client's IT Comms room and a client supplied Network Switch, the room booking panel will allow users to book rooms remotely in advance or ad-hoc via their O365, configuration and set up requires integration with the client's IT Network.

RS232 Cable	3	£12.95	£38.85

Conference Room 1 (D-20)

Conference Room 1 – AV System Overview

Conference Room 1 is a fully equipped 18-person meeting suite requiring:

This space has been professionally designed to support large group meetings, presentations, and video conferencing, using certified Teams Room equipment, high-performance audio systems, and flexible content sharing.

Visual Setup

Two 98-inch Samsung displays give ultra-clear views of shared content, video calls, and presentations - large enough for everyone to follow easily.

A wireless content-sharing device (Solstice Pod) lets anyone share their screen from a laptop or phone with no cables needed.

Video & Camera System

The room uses a Logitech Rally PTZ Camera that adjusts automatically to who's speaking.

Controlled by a tabletop touch screen (Logitech Tap Cat5e), users can easily start Teams meetings, mute audio, and adjust volume.

A Bluestream 4x4 matrix switch sends HDMI video to the displays from the in desk HDMI Connections (provided by others)

Sound System

All speech in the room is captured using desk mounted Logitech Rally Microphones and audio will be delivered from the Logitech Rally Speakers.

Controlling the conferencing hardware will be via the supplied Logitech Tap Controller

User-Friendly Features

Start a meeting with one touch via the tabletop controller.

Use your own laptop to run meetings with BYOM (Bring Your Own Meeting) via the Solstice Pod.

Share screens wirelessly from any device - laptop, phone, tablet.

The Logitech Rally PTZ Camera will be mounted centrally under the display with the Rally Speakers mounted either side of the camera, a Nuc PC and Display Hub will be mounted behind the screen, a Logitech Table Hub will be connected via Cat Cable to the Display hub and will be mounted under the client's table and will be cabled to a Mic Pod Hub which will allow the deployment of the Logitech Table Microphones.

A Logitech Room Booking Panel will be mounted to the exterior panel of each meeting room, this will be secured and connected on Cat6a Cabling to the client's IT Comms room and a client supplied Network Switch, the room booking panel will allow users to book rooms remotely in advance or ad-hoc via their O365, configuration and set up requires integration with the client's IT Network.

A Logitech Scribe will be mounted on the right hand side of the 85" Samsung Display - Client to provide the Whiteboard 21st Team to install

PROJECT TOTAL (Ex-Vat) £85,080.34

WHO WE ARE

At 21st Century AV, we believe technology should enable connection—not complicate it. Since 1999, we've been empowering organisations across the UK to create smarter, more connected environments where collaboration is seamless and communication is effortless.

Headquartered in Reading, Berkshire, we've grown to become one of the UK's leading audiovisual integrators. We've delivered thousands of reliable, future-ready AV solutions tailored to the unique needs of each client.

From high-spec boardrooms and immersive training suites to impactful digital signage systems, every project we undertake is guided by one core principle: technology should work for people.

**Make it simple,
Make it seamless,
Make it last.**

We don't just install equipment — we integrate technology into the fabric of your business.

WHO WE ARE

We specialise in one thing, and we do it exceptionally well:

We design, deliver, and support audio visual systems that empower people to connect, collaborate, and perform.

From the first sketch to long-term support, our services cover every stage of the audio visual lifecycle. Whether you're upgrading a single meeting room or rolling out a campus-wide solution, our end-to-end approach ensures clarity, confidence, and measurable results at every step.

WHY WE'RE DIFFERENT

What makes us stand out?

Our people.
Our team of AV designers, engineers, project managers, and technicians are not just certified experts — they're passionate problem-solvers who live and breathe Audio Visual. We hire for attitude as much as for skill, and we invest heavily in training to keep our team — and our clients — ahead of the curve.

Every project we deliver is backed by over two decades of knowledge, hands-on experience, and a genuine desire to get things right.

Let's Build Better Together

If you're looking for an AV partner who listens, delivers, and stands by their work — you've found us. Welcome to 21st Century AV.

21st Century AV Standard Terms & Conditions

1. Definitions

21st Century AV shall mean 21st Century AV Ltd.

2. Validity Period

Unless otherwise stated in the Proposal, this price shall remain Fixed, Firm and Valid for a period of fourteen (14) calendar days from date of submission, and hereafter it may be subject to confirmation or review. Prices may be subject to currency exchange variations prior to acceptance of the customer's order.

3. Acceptance

Quotations must be accepted in writing by an authorised representative of your organisation. Confirmation of acceptance can include purchase order, email or letter. Verbal confirmation will not be deemed as suitable notification of acceptance.

4. Terms of Payment

Our Terms of Payment are strictly as per the Investment Summary section included in this proposal.

5. Warranty

We warrant 21st Century AV's work for 365 days from date of practical completion. Such warranty is considered to be Null and Void should a second or third-party tamper with or alter 21st Century AV's works. Unless otherwise stated in 21st Century AV's proposal, third party Vendor warranties will not apply to this proposal. Full warranty terms can be viewed at www.21stcenturyav.com

6. Liquidated and Consequential Damages

No allowances have been made within the proposal for costs associated with a claim for liquidated or consequential damages. 21st Century AV will advise and discuss the proposed work with a customer representative, but the customer must make their own assessment of the potential for impact to the customer's business, and act to mitigate any identified potential impact.

7. Design

Where specified or requested we have provided for the design of the services to be supplied or installed by us. The design of equipment to be supplied and or installed by others would be the responsibility of the client or suppliers.

8. Return of Goods

Special conditions may apply to the return of active equipment including a restocking fee. Any special conditions can be provided by us at the time of order acceptance. In some cases, goods returned will only be credited in full to the Customer's account if returned in the same condition as delivered to the Customer. Initially this condition only applies to supply only equipment. Freight costs will apply in all instances.

9. Project Lead Time

While 21st Century AV tries to ensure that products are available at the time of this proposal and will be available at the requested delivery date, it cannot confirm that the products will be obtainable or that the product pricing will remain as set out in this proposal. This proposal does not represent any form of stock reservation. 21st Century AV reserves the right to re-issue any proposals where there has been a change in foreign exchange rate, product availability or other terms as a result of changing market conditions.

10. Proprietary Items and Documentation

All documents and items provided to the customer by us are proprietary items and documents and as such will remain our property until ownership is transferred by Agreement or placement of a Purchase Order. All documents and items are to be treated as commercial in confidence and trade secret and are not to be disclosed, discussed, or shown to any party without our consent.

11. Exchange Rate

Unless otherwise stated all imported product pricing included in our submissions will be based on current market rates at the date of the submission. Fluctuations over and above plus or minus 3% will constitute a variation to the quoted amount.

12. Licensing

Unless otherwise stated in the 21st Century AV proposal, licensing for software, hardware or any other product dependant on a license or requiring licensing is not included in 21st Century AV's proposal.

13. Confidentiality

The Client/Customer agrees to keep confidential and to not use or disclose any of the information contained within this offer.

Client Acceptance

By signing the execution block below, the Client agrees, declares and acknowledges that:

The Client has read and understood the current Terms and Conditions for the Supply of Goods and Services (the 'Terms') used by 21st Century AV (available at www.21stcenturyav.com) and acknowledges that those Terms, together with this Proposal, form the legally binding agreement (the 'Agreement') between the Client and 21st Century AV pursuant to which 21st Century AV will provide the Goods and Services to the Client;

In all circumstances, this Agreement will prevail over the Client's terms and conditions of purchase (if any) and override any terms and conditions contained in quotes, invoices or other documentation (including, without limitation, any terms and conditions attached or forming part of any purchase order) exchanged between the parties whether or not such documents expressly provide that they override this Agreement.

Conference Room 1 (D-20)

Conference Room 1 – AV System Overview

Conference Room 1 is a fully equipped 18-person meeting suite requiring:

This space has been professionally designed to support large group meetings, presentations, and video conferencing, using certified Teams Room equipment, high-performance audio systems, and flexible content sharing.

Visual Setup

Two 98-inch Samsung displays give ultra-clear views of shared content, video calls, and presentations - large enough for everyone to follow easily.

A wireless content-sharing device (Solstice Pod) lets anyone share their screen from a laptop or phone with no cables needed.

Video & Camera System

The room uses a Logitech Rally PTZ Camera that adjusts automatically to who's speaking.

Controlled by a tabletop touch screen (Logitech Tap Cat5e), users can easily start Teams meetings, mute audio, and adjust volume.

A Bluestream 4x4 matrix switch sends HDMI video to the displays from the in desk HDMI Connections (provided by others)

Sound System

All speech in the room is captured using desk mounted Logitech Rally Microphones and audio will be delivered from the Logitech Rally Speakers.

Controlling the conferencing hardware will be via the supplied Logitech Tap Controller

User-Friendly Features

Start a meeting with one touch via the tabletop controller.

Use your own laptop to run meetings with BYOM (Bring Your Own Meeting) via the Solstice Pod.

Share screens wirelessly from any device - laptop, phone, tablet.

The Logitech Rally PTZ Camera will be mounted centrally under the display with the Rally Speakers mounted either side of the camera, a Nuc PC and Display Hub will be mounted behind the screen, a Logitech Table Hub will be connected via Cat Cable to the Display hub and will be mounted under the client's table and will be cabled to a Mic Pod Hub which will allow the deployment of the Logitech Table Microphones.

A Logitech Room Booking Panel will be mounted to the exterior panel of each meeting room, this will be secured and connected on Cat6a Cabling to the client's IT Comms room and a client supplied Network Switch, the room booking panel will allow users to book rooms remotely in advance or ad-hoc via their O365, configuration and set up requires integration with the client's IT Network.

A Logitech Scribe will be mounted on the right hand side of the 85" Samsung Display - Client to provide the Whiteboard 21st Team to install

WHO WE ARE

At 21st Century AV, we believe technology should enable connection—not complicate it. Since 1999, we've been empowering organisations across the UK to create smarter, more connected environments where collaboration is seamless and communication is effortless.

Headquartered in Reading, Berkshire, we've grown to become one of the UK's leading audiovisual integrators. We've delivered thousands of reliable, future-ready AV solutions tailored to the unique needs of each client.

From high-spec boardrooms and immersive training suites to impactful digital signage systems, every project we undertake is guided by one core principle: technology should work for people.

**Make it simple,
Make it seamless,
Make it last.**

We don't just install equipment — we integrate technology into the fabric of your business.

WHAT WE DO

We specialise in one thing, and we do it exceptionally well:

We design, deliver, and support audio visual systems that empower people to connect, collaborate, and perform.

From the first sketch to long-term support, our services cover every stage of the audio visual lifecycle. Whether you're upgrading a single meeting room or rolling out a campus-wide solution, our end-to-end approach ensures clarity, confidence, and measurable results at every step.

WHY WE'RE DIFFERENT

What makes us stand out?

Our people. Our team of AV designers, engineers, project managers, and technicians are not just certified experts — they're passionate problem-solvers who live and breathe Audio Visual. We hire for attitude as much as for skill, and we invest heavily in training to keep our team — and our clients — ahead of the curve.

Every project we deliver is backed by over two decades of knowledge, hands-on experience, and a genuine desire to get things right.

Let's Build Better Together

If you're looking for an AV partner who listens, delivers, and stands by their work — you've found us. Welcome to 21st Century AV.

21st Century AV Standard Terms & Conditions

1. Definitions

21st Century AV shall mean 21st Century AV Ltd.

2. Validity Period

Unless otherwise stated in the Proposal, this price shall remain Fixed, Firm and Valid for a period of fourteen (14) calendar days from date of submission, and hereafter it may be subject to confirmation or review. Prices may be subject to currency exchange variations prior to acceptance of the customer's order.

3. Acceptance

Quotations must be accepted in writing by an authorised representative of your organisation. Confirmation of acceptance can include purchase order, email or letter. Verbal confirmation will not be deemed as suitable notification of acceptance.

4. Terms of Payment

Our Terms of Payment are strictly as per the Investment Summary section included in this proposal.

5. Warranty

We warrant 21st Century AV's work for 365 days from date of practical completion. Such warranty is considered to be Null and Void should a second or third-party tamper with or alter 21st Century AV's works. Unless otherwise stated in 21st Century AV's proposal, third party Vendor warranties will not apply to this proposal. Full warranty terms can be viewed at www.21stcenturyav.com

6. Liquidated and Consequential Damages

No allowances have been made within the proposal for costs associated with a claim for liquidated or consequential damages. 21st Century AV will advise and discuss the proposed work with a customer representative, but the customer must make their own assessment of the potential for impact to the customer's business, and act to mitigate any identified potential impact.

7. Design

Where specified or requested we have provided for the design of the services to be supplied or installed by us. The design of equipment to be supplied and or installed by others would be the responsibility of the client or suppliers.

8. Return of Goods

Special conditions may apply to the return of active equipment including a restocking fee. Any special conditions can be provided by us at the time of order acceptance. In some cases, goods returned will only be credited in full to the Customer's account if returned in the same condition as delivered to the Customer. Initially this condition only applies to supply only equipment. Freight costs will apply in all instances.

9. Project Lead Time

While 21st Century AV tries to ensure that products are available at the time of this proposal and will be available at the requested delivery date, it cannot confirm that the products will be obtainable or that the product pricing will remain as set out in this proposal. This proposal does not represent any form of stock reservation. 21st Century AV reserves the right to re-issue any proposals where there has been a change in foreign exchange rate, product availability or other terms as a result of changing market conditions.

10. Proprietary Items and Documentation

All documents and items provided to the customer by us are proprietary items and documents and as such will remain our property until ownership is transferred by Agreement or placement of a Purchase Order. All documents and items are to be treated as commercial in confidence and trade secret and are not to be disclosed, discussed, or shown to any party without our consent.

11. Exchange Rate

Unless otherwise stated all imported product pricing included in our submissions will be based on current market rates at the date of the submission. Fluctuations over and above plus or minus 3% will constitute a variation to the quoted amount.

12. Licensing

Unless otherwise stated in the 21st Century AV proposal, licensing for software, hardware or any other product dependant on a license or requiring licensing is not included in 21st Century AV's proposal.

13. Confidentiality

The Client/Customer agrees to keep confidential and to not use or disclose any of the information contained within this offer.

Client Acceptance

By signing the execution block below, the Client agrees, declares and acknowledges that:

The Client has read and understood the current Terms and Conditions for the Supply of Goods and Services (the 'Terms') used by 21st Century AV (available at www.21stcenturyav.com) and acknowledges that those Terms, together with this Proposal, form the legally binding agreement (the 'Agreement') between the Client and 21st Century AV pursuant to which 21st Century AV will provide the Goods and Services to the Client;

In all circumstances, this Agreement will prevail over the Client's terms and conditions of purchase (if any) and override any terms and conditions contained in quotes, invoices or other documentation (including, without limitation, any terms and conditions attached or forming part of any purchase order) exchanged between the parties whether or not such documents expressly provide that they override this Agreement.
